- Meals.
- Workshops.
- Networking.
- Site visits.

Interested in showcasing your enterprise/organization/region to accredited investors and/or motivated customers? Want to learn what investors need to hear to make a decision on your project/initiative? Interested in hosting a Trade Mission in your region? Join us to meet motivated investors and users of technology and learn what information they need to know before they invest in Eco Innovation.

**Learn about:**

- High-impact partner projects/initiatives.
- Hot trends in investing.
- Key sectors that investors look at.
- What is important to investors when they are considering an investment and things you can do to get their attention.
- The best ways to reach motivated investors and customers.

The program includes presentations from business leaders and investors. The agenda focuses on the needs of aspiring Investors, Entrepreneurs, Business Leaders, and Policy Makers. During the plenary session, participants will discuss the conclusions from the workshops and will agree on partner projects that will provide new opportunities to participants. There will be plenty of time for networking with the key decision makers, both before and after the workshops at the networking hour!

Alongside the workshops, a showcase will take place, featuring a range of professional advisory and soft-landing services available to businesses seeking to participate in Eco Commerce. Additionally, there will be optional one-on-one meetings to discuss specific partner projects/initiatives.
